Part Number	FMS080																														
Rating (A) AC21	80A MAXIMUM																														
Number of Poles	1P+N																														
Rated voltage	230V/ 50Hz																														
Rated insulation voltage (Ui)	500V																														
Fuse	22x58mm																														
Fuse Type	80A ME type																														
Application	Domestic																														
Switch complies with	BS EN 60947-3																														
Fuse complies with	BS HD 602693:2010+A1:2013 BS 88-3:2010																														
Maximum cable capacity	25mm ²																														
Terminal torque setting	2.5Nm																														
Dimensions (mm) HxWxD	80 x 128 x 63																														
ATTENTION Fuse must not be installed or removed under load
